Body:			X	LF fender dented, rust around both rear fenders
Interior:			X	Drivers seat torn, leather is weathered
Tires:		X		
Brakes:		X		New pads front & rear, "abs" light on
Engine:		X		
Drive-train:		X		
Other:				New steering parts, new battery

Recent Repairs made on the vehicle:

LR caliper replaced, LF inner tie-rod end replaced, engine oil changed

Known problems that should be addressed or could be of concern:

ABS light stays on

Drivability: *Millstream instructors are familiar with the vehicle and make the following comments:*

Since the vehicle is not licensed, it has not been driven on the highway, but when driving on school grounds, it seems to drive fine.

Overall Condition:

Drive-train seems to be good. Overall condition for its age is good.
For value comparisons the vehicle would fall into the Fair range.

This report is based on the instructors' best information and does not imply any warranty or guarantee. All vehicles are sold "as-is". This vehicle has been donated to the school and the students have worked to make it serviceable. Due to liability, test drives are not possible.
